

Conventional Forcible Entry Training Methods

Members will practice conventional forcible entry methods using hand tools on a Forcible Entry Door Simulator. Each member will practice

- Outward opening door, two firefighter method
- Outward opening door, single firefighter method
- Inward opening door, two firefighter method
- Inward opening door, single firefighter method right swing door
- Inward opening door, single firefighter method left swing door
- Spiking wooden door jams
- Through the lock "K" tool
- Padlock removal using the Duck bill lock breaker

Each member will be given the opportunity to become proficient at conventional forcible entry.

For information or a demonstration of our program contact Chief John Riker

Email address - training@firefighteruniversity.com cell# (973) 464 3903

Cost for the complete Conventional Forcible Entry Training Program is \$115.00 per firefighter.

Advanced training methods are also available for the experienced members.
